

ANTIQUUE TRACTOR PULL

Saturday, August 11th, 10:30 am

Welcoming all antique tractors built before 1960, whether your tractor is bone stock, or built for speed- we have a class for you!

Divisions:

3 mph- stock tractors with hanging weight allowed, maximum hitch height 18", no cut tires of any kinds, max tire size is 15.5-38 6000lb and less, 6500 and up is 16.9-38. Wheelie bars recommended but not mandatory.

6 mph- enhanced class engines must be matching to what your tractor was shipped with from new (ie. Farmall with a Farmall engine not 350 Chevy). Wheelie bars mandatory, 18.4-38 tires max size, cut tires allowed. 18" hitch height.

Classes:

3000 lb – 7500 lb every 500 lb, 3 & 6 mph \$10 hook fee

Pulling on a weight transfer sled, digital scales onsite
